Every Bivi tells a story

It clamors for room to collaborate, ideate and innovate. It aches for spaces to rejuvenate, to engage deeply – to thrive. Bivi reminds us that all is possible, and that the office writes its own story. It's invited to blur the lines between work and home with bold brush strokes and inspired, honest design.

When is a desk not just another desk? When it's Bivi

You don't think of your workplace as an assortment of desks and cubicles, and neither do we. It's where work and personal passions collide. It's where you see yourself wanting to be every day. Let's create the workplace that's all about who you are today and what you'll become.

Start Up Culture

We studied some of the most admired small businesses to see what's made them great – and what keeps them that way – and found several common themes:

- their personality comes through.
- they have the freedom to be themselves.
- there is passion for their craft.
- a sense of community makes them part of something bigger.
- as a team, they have fun together.
- they have a choice of how and where they want to work.
- they take time to connect.

Passion

Passion is at the core of an entrepreneur's business. This passion, whatever it may be—passion for community, revenue or environment—becomes the heart of the business.

12-0002116

AUTHENTICITY

Authenticity is about the freedom to be yourself. It's about celebrating each person and the diversity they bring to the team.

16-0068932

AGILITY

Agility is about physical space (workstations and meeting tables that move between standing height and seated height, traditional desks and lounge settings) and a flexible environment that supports the fast exchange of ideas, strategy and actions that accelerate business results.

PERSONALITY

Feeling comfortable in the workplace is the first step to being engaged and productive, two things that spur forward movement for the company.

Work, workers, workplace

Bivi stands out in the workplace. It's adaptable design and many accessories bring a sense of startup culture to any workplace.

SIT
Working in traditional seated posture is a classic way to attack the day.

STAND
Stand up to get down to work, or gather the team around for impromptu meetings.

LOUNGE
Rumble seat brings the unique feature of an integrated sofa to a benching solution.

PRIVACY & FOCUS ZONES
Heads down work demands careful attention without distractions. Bivi's Privacy Screens and Arch Infills create visual boundaries so you can stay focused and productive.

CHOICE + CONTROL
Bivi delivers true control to the user, from postures to surface materials and finishes, all while preserving the agility needed to quickly pivot, iterate and adjust in fast-moving environments.

- 4AQ9 Scarlet Accent Paint

DECOR

- 2LBN Bisque Noce
- CW Clear Walnut
- WY Snow
- SL Platinum Metallic
- MG Merle

Colours are representative and may vary slightly from actual material.

SUSTAINABILITY

DESIGNING FOR THE ENVIRONMENT REQUIRES INNOVATIVE THINKING AND SOLUTIONS.

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential. Research and insights direct our path.

It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

Innovative products and solutions result. In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.
