

## ELEGANCE & VERSATILITY

Configuring a room for conferences, training or waiting areas needs seating that is robust, effective – and looks good. Eastside plain is excellent for optimising space use as it's light enough to be stacked and stored effortlessly. For your reception areas or waiting rooms, Eastside Beam comes in 2 to 4 chairs, with or without armrests, with a tablet as an option.

## MULTI-PURPOSE SEATING

Workspaces for collaboration require highly flexible seating that is easy to reconfigure and, above all, comfortable. The Eastside plain chair was designed to provide comfort in collaborative spaces and welcome areas. Eastside plain works well in spaces like canteens, universities, medical facilities and welcome areas because it's easy to clean, store and move around (for indoor use only).
