Plug and play acoustics

In the open plan, the demand for enclosed spaces usually exceeds the supply. Based on research in collaboration with more than 30 global customers, Steelcase recommends on average a ratio of 1:6–1:10 privacy settings depending on the needs, programs and desired outcomes of the organization. Provide workers with the privacy they crave with Officebricks Acoustic Pods, a modular system that offers top-level sound insulation in an inviting atmosphere.

CONCENTRATION, CHOICE AND CONTROL

85% **86%**

Difficulty concentrating *Lack choice and control*

85% of workers today say they have difficulty concentrating and 86% say they lack choice and control over where and how to work, based on the task at hand

Steelcase and Microsoft, 2017

SMART DESIGN

A complete plug-and-play system. Officebricks Acoustic Pods can be assembled quickly—no drilling, adhesive bonding or screwing needed. Disassembly is also seamless, allowing for easy reconfiguration or relocation of office space. The On Air sign indicates to workers that a unit is in use, making sure privacy is maintained.

ACOUSTICS

Made of laminated safety glass and a clever brick system, Officebricks Acoustic Pods provide two-way sound insulation. Sound outside of the pod remains outside, while conversations inside the pod stay private. A low-noise ventilation system ensures a healthy climate and pleasant atmosphere without diminishing the acoustic comfort.

STATEMENT OF LINE

Phone Unit

Outside dimensions:
138w x 106d x 238h

Inside dimensions
(without absorbers):
122w x 90d x 204h

Work Unit

Outside dimensions:
168w x 138d x 238h

Inside dimensions
(without absorbers):
152w x 122d x 204h

Meeting Unit

Outside dimensions:
226w x 196d x 238h

Inside dimensions
(without absorbers):
210w x 180d x 204h

Conference Unit

Outside dimensions:
316w x 286d x 238h

Inside dimensions
(without absorbers):
300w x 270d x 204h

All measurements in centimeters (cm)
Minimum ceiling height for all units: 250cm

DESIGNED FOR ACOUSTIC COMFORT

Inspired by our research into privacy, attention at work, engagement and creativity, Steelcase has identified several different planning approaches that incorporate key design principles to increase acoustic comfort within a workplace floor plan. The best option for any organization depends on its culture, workforce mobility strategy, processes, protocols and real estate holdings.

SURFACE MATERIALS

Brick Textures:

Oak Light 02
 Aluminum 04

Spruce 03
 Concrete Pearl Grey 05

Brick Colors:

Stone 06
 Agave 08
 Yellow 10
 Peach 12
 Turquoise 14
 Petrol 16
 Dark Grey 18

Birch Grey 07
 Soft Green 09
 Orange 11
 Mint 13
 Ocean 15
 Wine 17
 Black 19

Brick Absorbers:

Light Grey 01
 Greige 03
 Red 05
 Sky Blue 07

Grey (Standard) 02
 Green 04
 Grass Green 06
 Dark Blue 08

Colors are representative and may vary slightly from actual material.

PERFORMANCE

Acoustic properties are at the top end of the market (>35dB) and the Pods include a sensor-activated, low-noise ventilation system.

The Pods are made in Germany with high-quality components sourced in Europe.
