

Flex Mobile Power Power & Cable Management

Functional Beauty

Teams and individuals need the freedom to work across a range of spaces, but power access often limits their choices. Designed to meet people where they work, Steelcase Flex Mobile Power delivers everyday utility in a sculptural form, integrating seamlessly into any environment. The soft-touch finish, 3D texture, and refined handle design create an easy to use experience that empowers work wherever, whenever.

Innovative Tech

Developed in collaboration with Anker, a global leader in charging technology, Steelcase Flex Mobile Power brings high performance to any workspace. Intelligent power distribution and advanced LFP battery chemistry deliver reliable, high-speed charging for a wide range of personal devices. The LED indicator displays current charge and status of overall battery health through a toggle of the units power switch.

Performance Features

Two 100W USB-C Ports

One 18W USB-A Port

120W Power Output

2,000+ Cycle Lifespan

Features

Adaptive Power Output
Two USB-C ports and one USB-A port deliver up to 120W total output, enabling multiple combinations of devices to charge at once.

Charge + Health Level Indicator
LED indicator shows battery charge and overall battery health with a simple toggle.

Proprietary Charging
Advanced LFP battery chemistry allows up to five units to fully charge in less than five hours using the proprietary charging tray.

Seamless Integration
Optional Steelcase Flex Cart can integrate two Mobile Power kits with one-cord-out charging.

Statement of Line

Mobile Power Kit
