

Possilio®

Height-Adjustable Desks and Benches

Possilio is a versatile collection of height-adjustable desks and benches with modular specifications and design options that can be easily tailored to unique aesthetic and performance needs.

Interchangeable legs and feet open numerous customization possibilities, and a folding mechanism - with a patent pending - offers toolless leg assembly, streamlining shipping and storage.

Better Work is Possible with Possilio

With a modular design, intuitive controllers, and multiple privacy options, Possilio adapts to a diverse range of needs, supporting a wide variety of body types and mobility levels. People are empowered to transition between seated and standing postures seamlessly, leading to better focus, increased productivity, and a heightened sense of wellbeing.

Mixed-Use Focus Space for Mid-Sized Teams

This setting is ideal for medium-sized teams working in mixed-use environments where they need to switch between focused work and collaborative work throughout the day. The desks are strategically positioned to empower people to work individually while making it easy to connect with their peers when needed. Movement is encouraged, either by adjusting the height of the desk throughout the day or by taking advantage of the collaborative corner or the rejuvenation nook.

Designated Team Space for Large Teams

This team space is thoughtfully designed to support the evolving needs of high-performing teams. Possilio benches deliver a dependable, intuitive solution that invites people to seamlessly shift between seated and standing postures. Paired with convenient privacy screens, they enhance comfort and wellbeing, providing sustained comfort for focused work.

Individual Workstations for Smaller Teams

This setting is ideal for organizations that want to bring a residential appeal to a professional setting. When placed in front of each other, the Possilio desks serve as a comfortable home base for smaller teams. The individual workstations, together with the convenient modesty panels, boost comfort, as people have the right level of privacy while staying within close reach of each other.

Shielded Team Space for Deep Focus Work

Deep-focus work requires a comfortable space that supports people's natural movements throughout the day and removes visual distractions. The privacy screens help mitigate visual distractions and provide individual boundaries that support focused work. Clustered in groups of two, these desks help people switch postures quickly and silently, so that the rest can tackle their tasks undistracted.

Product Range

The height-adjustable desks and benches in the Possilio collection are thoughtfully designed to adapt to different environments, space requirements, budgetary needs, and aesthetics. They go above performance requirements, empowering you to express your style in the long term, thanks to their interchangeable components that make it easy to retrofit your desk or bench as your needs evolve.

Toolless Leg Assembly

Possilio features a unique, patented toolless leg assembly mechanism enabling quick and easy installation. No tools are needed, just 2 people and 60 seconds. Here's how it works:

A Possilio desks arrive upside down, in a folded state. First, the legs are folded up. Next, the handle is turned into place, securing the legs. Then the motor cable, connected to the control box, is pulled into the motor housing. The cable features a blocker that prevents the handle from moving, making it a safe and reliable assembly system. Then, attach the user interface. Lastly, the desk is turned up and ready to use.

Dimensions

Possilio Desk	Possilio H-Bench
Height: H650-1250 mm, Lift 2, electric	H650-1250 mm, Lift 2, electric
Width: 1200 – 2000mm	1200 – 2000mm
